We want to introduce ourselves as the citizens of this wonderful country which hosted many civilizations throughout the history. During the antique period, Aphrodisias & Perge cities hosted many sports competitions and now Antalya is replacing it, with facilities, natural beauties, sports activities and increasing her references. The life in tourism business for us started in the 1980's and we gave it a new dimension by establishing our own company 3 ADIM (that means triple jump). We derived that name from athletics triple jump it is a branch of decisiveness. That made us to think taking our clients to the peak.

OUR SERVICES; • Sport training camps for academies, teams, clubs, federations, • Meetings and seminars, • Hotel reservations, • Tours & airport transfers

2011 yılında faaliyetine başlamış olan Abacı Grup işletmelerinden biri olan Abacı Konak Otel, bünyesinde bulunan 11 farklı konak 1921 yılında Yunanlılar tarafından yapılmış, 1923 yılında aslına uygun olarak Bağdağdi mimari tekniği ile yeniden hayata geçirilmiştir. 5250 m<sup>2</sup>'lik bir alana inşa edilen konaklar tipik Türk evlerinden oluşmaktadır. Her biri birbirinden farklı estetik konforu buluşturan konaklarda 10 suit, 55 standart olmak üzere toplam 65 odadan oluşmaktadır.

Konakların restorasyonu 2001 yılında başlayıp, 2009 yılında tamamlanmış olup, yapılan restorasyonda binanın özgün mimari karakterinin bozulmamasına özen gösterilmiştir. Abacı Konak Otel, kurucularından yöneticilerine ve tüm çalışanlarına kadar, kendi alanında deneyimli bir ekip tarafından hizmet veren, ülke turizmine katkıda bulunmayı hedefleyen, şehrin özgünlüğüne, yalınlığına ve kültürel mirasın kalıcılığına adanmış, sadece Eskişehir'de değil, Türkiye ve tüm dünyada misafir memnuniyeti felsefesi ile çalışan turizm işletmeciliğinin bir simgesidir.

The German Association of Consumer Protection

Founded in 1982, Akdeniz University Hospital has been active in the provision of services since 1997 on a 218,348 m<sup>2</sup> site located on the university central campus.

With a staff of 3,828 serving a total capacity of 969 beds, the hospital admits 3,700 new patients per day. The 94 bed capacity intensive care unit and out-patient unit with 228 beds contribute to creating a health complex which provides medical services for almost 977,541 polyclinic patients and 54,781 in-patients from Antalya and the surrounding provinces every year. Akdeniz University Hospital sets an example of excellence in Turkey with its polyclinic and clinical bed capacity.

In line with its target of achieving a standard of excellence in the provision of health care services, the hospital has been awarded the TS EN ISO 9001:2008 Quality System Certificate. Our hospital is one of the leading centres in Turkey for organ transplant surgery, and also provides a range of efficient and quality health care services in oncology, cardiovascular surgery, emergency aid and traumatology, reanimation, intensive care, and other medical fields. Minor surgical operations can be performed in the Outpatient Surgery Center, with patients being discharged from hospital on the same day as their surgery.

Union of Mediterranean Touristic Hoteliers and Operators (AKTOB) have been found in 1984 due to the requirement of systematic structure of union in accommodation sector.

The union which started its activities under the name of Antalya Organisation of Touristic Operators (ANTİD) then modified its name to Society of Mediterranean Touristic Hoteliers and Operators (AKTİD) and finally they concluded in the name Union of Mediterranean Touristic Hoteliers and Operators (AKTOB). The union is working on the principle of meeting national and international institutions and organisations in the sector with service providers centrally and joining them based on the three objectives of quality, modernity and leadership.

AKTOB which took quality as its philosophy since it started its activities is resuming its mission for a period of 30 years. Our activities within the framework of Antalya Introductory Committee that we formed for the vision of making Antalya a brand and choosing it as the leader destination in global tourism market is in progress based on the same philosophy we have.

AKTOB has 504 members and with more than 145 thousand rooms and 313 thousand beds; it is one of the biggest organised structures in accommodation sector.

Apart from short term objectives where number of members and service will be improved, we are resuming our activities in the direction of; taking more effective roles in public sphere and having structure to shape, lead sectorial events and what is more a structure which has sanctions on the sector.

A synthesis of hundreds of folkdance figures and music from different regions, Fire of Anatolia is a unique project whose source is Anatolia's ancient mythological and cultural history. Produced by Mustafa Erdogan, the group hopes to introduce the world to the fire that arises from the ancient mosaic of love, cultural history and peace in Anatolia. The Fire of Anatolia, which is regarded as one of the best dance groups of the world because of countless international tours and various promotional activities has taken great steps in realizing this goal.

Anadolu hospitals were first established in 1997 and successfully treated millions offering and domestic patients in the last 20 years.

The group, which consist of hospitals and all of them, are located in Antalya and districts, conducts current treatments with quality and scientific approaches.

High quality services that we provide in all aspects increase number of our patients and demands, while the responsibility that we carry for our patient rises. With most experienced medical team and managerial staff anadolu hospitals are one of the most well-known tourism health and health tourism center in the world and Turkey.

Our medical and administrative systems are constantly measured and evaluated in order to improve the hospital's systems and increase patient satisfaction and care.

We work in accordance with laws, regulations and principles of professional ethics and pay serious attention to our patients' rights to their privacy, we are honoured and happy to welcome you.

At Kadir's, we cater for everybody; from the young to the young at heart. Live out every kid's dream to sleep in a real treehouse, or spend a night of comfort in one of our well appointed bungalows.

We also have a wide variety of activities for the adventurer. Olympos is one of the most absolutely gorgeous spots in all of Turkey – a paradise awaiting you. Home to a wide range of flora and fauna. The beach is one of a few breeding grounds for the loggerhead turtles.

As you know, at Kadir's, breakfast and dinner is always included in the price of a room. There are now five options on the breakfast menu and the dinner buffet consist of five or six mainly vegetarian cuisine with meat dish twice a week and at Kadir's you can always come back for more!

Over the last six years Kadir's has expanded rapidly. We now have 100 bungalows 15 cabins and 10 dorm rooms, in addition to our camping grounds. With a total capacity of over 300 people in beds, we are still able to offer meals and services to Olympos day-trippers and tourists.

Doctor fish are on duty in the world's natural psoriasis and eczema treatment centre without side-effect. Our hot spring offers four types of accommodation. It has a total capacity of 300 beds with three suit rooms. There are 8 pools in our hot spring, one of which is semi-olympic. Two indoor pool and two outdoor pools are used for treatment purposes. Four pools are used for entertainment and relaxation other than treatment. Our other facilities are restaurant, market, tea garden, children's playground, mini soccer pitch, open parking lot, first aid unit etc. Tubular passage is available for pools for unfavorable weather conditions. Our pools and hot spring are open for 12 months of the year. Our hot spring facility organizes daily trips to promote sivas and its vicinity. Hot spring water runs in our rooms as well. Our rooms have central underfloor heating. Foreign tourists who visit our facility from all around the world return to their country happily.

### Rising Value Kepez

Since 2009, Kepez has been the vitrine of Antalya and its rising value with its huge investments made in many places such as health, sports, education, infrastructure, architecture and art. With 9 years of change in this framework, we have become a modern, prestigious and comfortable zone, and we have built a district in front of every inhabitants. In the direction of this change; instead of the gecekonduların appropriate high-quality and comfortable buildings for the rise of construction plans, we have thousands of citizens desire longing for our citizens. Within the scope of our efforts to make the Settlement Factory a settlement area for everyone from 7 to 70 and for tourism, we are giving our city five different museums. We are presenting our children by doing here the first science center of the Mediterranean region.

We work day and night to find out that the Chalabi Sultan Mehmet Mosque, which will be worshiped at the same time by 5,000 people and read the Qur'an for 7 days and 24 hours, will enter into service as soon as possible. We have taken the era in the field of health, where investment and breakthroughs have been realized since 2009. Our efforts to bring the ancient city of Lyrboton Kome, which has been abandoned to its destiny for hundreds of years, to the tourism of Antalya through archaeological arrangement continues. All these efforts since the day we came in and the first thing that we will do next is to laugh the face of our nurses. We live happily and comfortably in their home and happily live their life as our greatest wish.

The basis of Lisinia Nature Project was founded by nature volunteer Veterinarian Doctor Ozturk Sarica in the shore of Burdur Lake, in 2005. One of the most important cities of Psidya which is the old name of the region is Lisinia, and center takes its name from here. (Lisinia: it means the twinkle of rising and setting sun on the water.)

Sarica who sees the eternal harmony between all living and non-living beings, especially in last 30 years the pollution of nature and the cancer as a result of its reflection, decided to roll his sleeves up to maintain natural life which, he devoted himself, and to transfer to next generations.

After 3 years of permission works Lisinia is formalized as one of the first Wild Life Centers of our country. At the same time all expenses are granted to Ministry of Forestry and Water Affairs for 10 years by Ozturk Sarica.

We are continuing the journey we began in Istanbul at the beginning of 2013. Liv hospital is named after the “leading international vision” that guides our every step as a genuinely pioneering healthcare institution throughout the world in terms of care and clinical outcomes. Liv hospital Ankara is committed to combining a patient-oriented approach with highly experienced physicians using a multidisciplinary approach. Our international patients are in safe hands at Liv Hospital, where we combine the use of state of the art diagnostic and treatment procedures with traditional care and attention to each one of our patients, in their own language and sensitive to their cultural norms. Liv Hospital Ankara, equipped with world class medical infrastructure and technology, is now serving international patients in 25,000 square-meter indoor area. Liv Hospital Ankara aims to offer you high quality of life through the dedicated work of its renowned and experienced medical staff.

A timeless place: Kaleiçi Oldtown.  
In the Mediterranean city of Antalya, Kaleiçi Oldtown is the 2000 year-long adventure of mankind. Time here flows from one civilization to another.  
The heart of Antalya beats in Muratpasa and the heart of Muratpasa beats in Kaleiçi. In fact, all roads in Antalya leads to Kaleiçi Oldtown.  
Kale Kapısı (Castle Gate), which is the commercial center of history, culture and centuries-old civilizations; Hadrian's Gate (Üç Kapılar) blessed by the advent of the Roman Emperor Hadrian; The Yivli Minaret bearing the architectural traces of two separate civilizations; Kesik Minaret, which houses the traces of faith of three different civilizations; The Hidirlik Tower, which welcomes the Mediterranean sun since the 2nd century, lives in Kaleiçi.

It is a 9 storey hospital located in central Antalya in compliance with the European Union Standards, and located 8 km from the airport. Equipped with German technology and has an indoor space of 14200m<sup>2</sup>, intensive care capacity of 48 beds, and 119 beds in total. Ambulances are equipped with technological devices to carry patients under safe conditions and to serve 24 hours a day. Private Ofm Hospital, having competent English, German and Russian speaking staff, renders health services to the local people and to the foreign tourists, who come to our country within the scope of health tourism covered by foreign of private insurances. Our team of highly dedicated health professionals use the latest methods to operate morbid obesity and do hair transplantation (fue method).

When we decided to open the Optimed Hospital 11 years ago, health services were inadequate in Çerkezköy. We sent the patients to the neighboring provinces, there was no intensive care unit, the facilities of the operating room were limited. We had to ship our newborn babies to another hospitals for live. Display services are almost negligible. In 11 years, we have reached the capacity of approximately 500 employees, 60 doctors and 200 beds.

Since 2011, we continue to serve with our surgical medical center in Çorlu with an optimum manner. In our interventional cardiology unit, with our angiography device, we can save lives before it is too late to diagnose and treat heart diseases in some cases. In addition to our cardiology and cardiovascular surgery team, we also serve our neurosurgery and nerve surgery team. Including heart and vascular surgery and open heart surgery, various complex operations can be done. We have completely redesigned our first building in accordance with mother-friendly hospital conditions. All of our obstetrics and gynecology polyclinics, obstetrics units, patient rooms and newborn intensive care units in this building. In 2010, we became "baby-friendly hospital" and now "mother-friendly hospital".

Adada Ancient City : The ancient city was discovered in 1888. The history of foundation remains to be unknown yet the name Adada was seen in a pact made with Termessos in B.C. 200 for the very first time. Yazılı Canyon National Park : Covered on a 600 h. area, it is 10 kms away from the town of Sütçüler. Sanctuaries, altars and inscriptions from Byzantium era could be seen on the side walls of the canyon. Therefore the canyon is named as "Yazılı" which means "written". The depth of the canyon varies between 100 and 400 m. Registered as a national park in 1989. The national park is an attractive place for tourists with its rich wildlife, plantation and nice view. The Kings Road passed through the canyon and the ancient stone carvings through the path carry historical value. This is the very road St. Paul took on his way from Perge to Pisidia Antiokheia.

In 2005, the Turkish Healthcare Travel Council (THTC) was established to strengthen health tourism activities and to unite the national efforts to bring more patients to Turkey from around the world. With 375 members, consisting of general hospitals, private clinics, thermal and medical SPA centers, hotels, travel agencies, SPA and wellness centers, facilitators and assistant companies, and with 161 network offices in 90 different countries, the council has grown into the largest healthcare association both in Turkey and the world.

Within its ten years of existence, the council has had a significant presence at over 500 healthcare exhibitions, medical conferences, tourism fairs, and global summits, many times organizing and serving as a platinum or diamond sponsor at these events.

THTC has developed an exemplary corporate structure. The growing staff, which is capable to serve in all world languages, delivers excellence and ingenuity. In 2013 at Monte Carlo-Monaco, THTC initiated and served as a founding country for the Global Healthcare Travel Council, which promotes and provides healthcare services to world citizens. Through such endeavors, the Turkish Healthcare Travel Council has cemented its place as a global contender in the healthcare industry.

- An international platform, especially designed for healthcare professionals and patients,
- Its aim is to strengthen the communication between patients and healthcare professionals, and to provide direct communication between patients and healthcare providers, without using any mediator,
- To enhance the communication between health institutions in Turkey and THTC's Worldwide Network Offices, Map2heal developed the hi-tech online web portal to serve both network offices and international patients,
- Currently available in 17 languages and operates in over 20 Countries,
- Its mission is to provide an easy access to healthcare providers or doctors and also to offer a global choice of doctors based on individual needs,
- To enhance the communication between health institutions in Turkey and THTC's Worldwide Network Offices, Map2heal developed the hi-tech online web portal to serve both network offices and international patients,
- This portal will make lives easier and provide faster responses from THTC member hospitals and clinics,
- It will also give the chance to live chat with doctors as well as providing easy follow up for pre and post operation between patients and doctors access to desired doctors and other healthcare professionals by searching keywords relating to disease/symptoms or by searching specific medical departments,
- Secure transfer of examination results to the desired healthcare professionals,
- Chance to get an online "second opinion" from worldwide doctors and health institutions,
- Direct communication with doctors or healthcare providers through live chat in own native language,
- A system which provides automatic translation into 17 languages and enables direct, international communication,
- The online platform which globalizes health tourism,

Turkish Rugby Federation was founded in 2001 as Turkish Baseball, Softball Federation. After that American Football and rugby was included in 2005 and four branches was combined under its roof. Our mission is to introduce 'relatively new' sports for Turkey, reach as many people as possible and make improvements on national and international levels. We also aim to represent Turkey in international platforms.

We are working hard to accomplish missions with our ambitious team. We support clubs and athletes in any ways we can especially via the leagues and tournament that we organize. In addition regular clinics are given to coaches and referees for the improvement of technical knowledge. These are supported by international federations. On the other hand on the international level we try to found and maintain a system based on Olympic spirit and values. We try to encourage everyone, kids and adults, to be part of our world.

Although, Turkey Triathlon Federation was established under the auspices of the Republic of Turkey Ministry of Youth and Sports in 2001, first triathlon trail has been made at Eskişehir at 1989. In 1991, first international event organized in Alanya.

After the establishment of Turkish Triathlon Federation, triathlon was rapidly grown in Turkey. Now every event of federation is attracting more than 500 athletes at all ages.

The main aim of Turkish Triathlon Federation is while supporting and developing athletes to compete in the Olympic games, also creating opportunities for everyone to achieve their personal triathlon challenges. To promote that main goal, Turkish Federation organizes events, competitions, technical official seminars, coach's seminars etc.

**1.Promote India as a destination :** We intend to promote India as a destination by bringing all stake holders of Medical Value Travel Business together. This will be achieved by going into new geographies from where India does not get much business as of now or gets less business compared to our competing destinations. The activities will include; Doing Road shows in Target destinations, doing exhibitions and participating in the destination shows as a country instead of individual entities. **2.Bringing the Industry together ;** This not only includes bring Hospitals and MVT players together but also to bring inputs from AYUSH entities, Pharma companies, equipment companies, NABH and Travel companies together. **3. Bringing standardization :** Though this is a long term objective but over a period of time, this association plans to bring a process and universal approach into business. This will take place over a period of time by sharing best practices and bringing harmony between the healthcare companies. Our goal should be to make India a great destination, increase business to India and grow everyone in one way or another. The distinction will be built by quality and process. **4.Support Government Initiatives and Policy making :** We will from time to time share our combined market presence and intelligence to the government. We will through a process of presentation and recommendation try to help the government grow the revenue earning as a nation and build the international credibility of Indian Healthcare system. We will show case the employment opportunities, commercial opportunities and diplomatic opportunities through the Medical Value Travel business. At the same time, we will help government implement its policies by means of training and advocating.
